Sundre Youth Justice Committee Working With Youth To Make Better Choices and Restoring Trust in Community

The newly re-formed Sundre Youth Justice Committee is comprised of local volunteers who provide a community process for youth who have come into trouble with the law, and those they have harmed. We work with youth to be accountable for their actions, address and make amends for the harm they created, and make better choices. We administer the extra-judicial sanctions and measures programs, so that youth, who participate successfully in the process, have the opportunity to move forward in life without a criminal record.

We facilitate consequences that are meaningful and constructive. Working to restore balance within the community, and families.
